Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), (previously presented): a local router comprising network communications means which can connect to a communications network and has a plurality of IP addresses representing a plurality of locations on the network and which responds to a communications message addressed to any of the plurality of P addresses, and data transfer means which can transfer the data included in a communications message addressed to any of the plurality of IP addresses to a plurality of destinations and selects destinations of the data according to the IP address of the communication message; wherein the local router can connect itself to one or more network-incompatible devices, and the selected network-incompatible devices are included in the destinations, wherein the one or more network-incompatible devices cannot be directly connected to said communications network as claimed in claim 17. Similar features are claimed in claims 20, 21, 23, 25, 26, 27, 86, 91, 95, and 97. Therefore, claims 20, 21, 23, 25, 26, 27, 86, 91, 95, and 97 are allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
